# Open-Source Intelligence Investigation

---

**Open-Source Intelligence Networks can provide a wealth of information for a private investigator. We can usually gain access to public information and private information within the content of the pages and profiles, which may include photos, conversations, messages, others within the network, and more depending on what Open-Source Intelligence network and system is being utilized. Our private investigators have also been successful in setting up online sting operations and can in most circumstances infiltrate sub-networks in which subjects belong. If you need a Facebook Open-Source Intelligence investigation, or an investigator for any other Open-Source Intelligence website, you have come to the right place.**

## Open-Source Intelligence Investigation
